FOAM

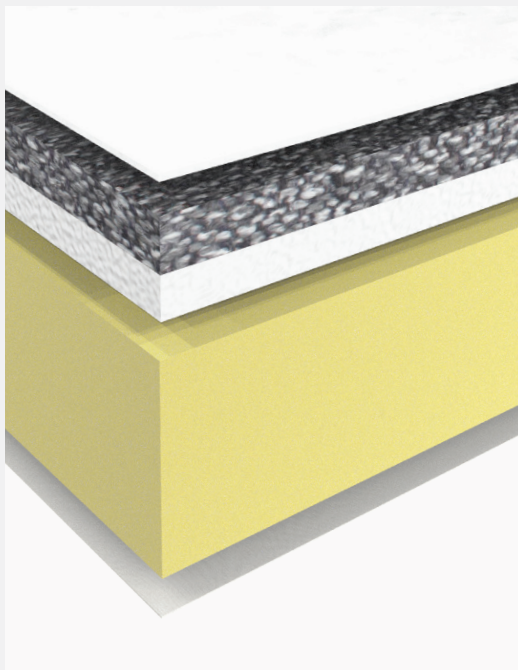

Featuring a high-density foam core with fiber jacket, our Foam cushion offers a more structured yet comfortable sit that lends itself perfectly to kids, pets, and high-traffic areas.

SPRING FOAM

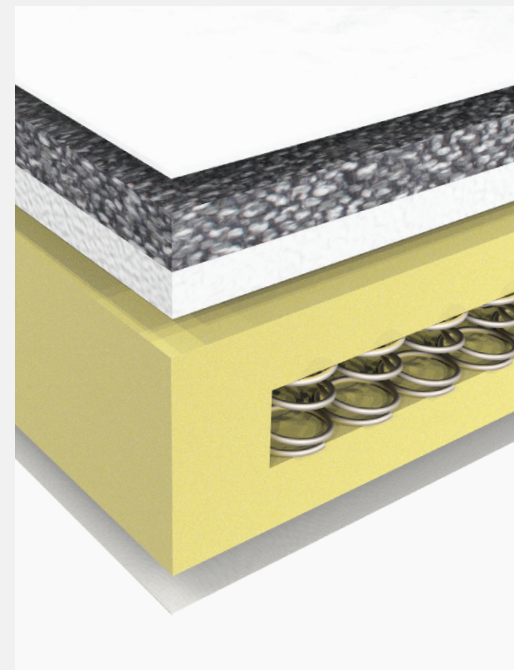

Featuring spring coils inside our high-density foam core with fiber jacket, our Spring Foam cushions offer a structured sit with more movement and recovery than our standard foam cushion. Perfect for families and high-traffic areas.

**Available on select styles: Carson, Lisbon, Savoy, Kaden and Danford.*

DOWN

Featuring a high-density foam core wrapped in a down and fiber blend jacket, our Down cushion offers a soft, relaxed, sink-into-the-seat type sit. Perfect for anyone who wants a cozy, inviting space and doesn't mind some maintenance. We recommend fluffing and rotating cushions every few weeks to maintain down appearance.

SPRING DOWN

Featuring spring coils inside our high-density foam core with down and fiber jacket, our Spring Down cushions offer the same relaxed comfort as our down cushions with an added element of recovery. Perfect for anyone who wants the softness of down with a bit more ride and spring. Less maintenance required than our standard down cushions, however we still recommend fluffing and rotating cushions every so often to maintain down appearance.

**Available on select styles: Carson, Lisbon, Savoy, Kaden and Danford.*
